ANSHIKA AGARWAL

Gwalior, Madhya Pradesh, India | anshika1124agarwal@gmail.com | +91 9399831221

EDUCATION

Amity University Madhya Pradesh *Expected June 2028*
B.Tech, Computer Science Engineering
Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems

TECHNICAL SKILLS

- Languages: C, C++, Python, JavaScript, SQL, HTML, CSS
- Frontend: React.js
- Backend: Node.js, Express.js, RESTful APIs, WebSockets (Socket.IO)
- Databases: PostgreSQL, MongoDB, SQL
- Core CS: Data Structures & Algorithms, OOP, DBMS
- AI/ML: Machine Learning Fundamentals, NumPy, Pandas
- Developer Tools: Git, GitHub, VS Code, Postman

PROJECTS

GATIMAAN — Smart Queue & Token Management System *Sep 2026 – Oct 2026*
React.js • Node.js • Express.js • PostgreSQL • Clerk • Socket.IO

- Contributed to a government-focused digital queue management platform for streamlined public service delivery.
- Integrated React frontend components with backend APIs for token tracking and queue management.
- Worked with authentication, role-based access control, and PostgreSQL database integration.

NaariShield — Women's Safety Platform *Aug 2026 – Sep 2026*
Arduino • ESP8266 • GPS • Node.js • Express.js • MongoDB

- Developed a women's safety solution integrating emergency alerts and location tracking to support rapid assistance.
- Worked with ESP8266, GPS, and sensor-based hardware alongside a Node.js and Express.js backend.
- Focused on real-time safety monitoring and emergency response functionality.

ACHIEVEMENTS

- Winner — MUJ HACK 4.0, Manipal University Jaipur (Sep 2026): Secured 1st position and won a ₹70,000 cash prize for a women's safety project.
- Runner-Up — SISTech Hackathon, Bhopal (Oct 2026): Secured runner-up position in the Industry Automation category as part of Team Rajdhani, winning a ₹5,000 cash prize.

LEADERSHIP

Tech (DSA) Coordinator — Amity Coding Club *Mar 2026 – Present*

- Organized DSA workshops, coding contests, and mock interview sessions for students.
- Mentored members in Data Structures, Algorithms, and competitive programming.
- Curated problem-solving roadmaps and coding resources to improve technical skills; coordinated with club leadership to execute technical events and coding challenges.
- Organize hackathons and tech events in college.
